Project Module (CHC 6096)

Weekly Report Sheet - 2023/2024 Academic Year

STUDENT NAME:	Jack
STUDENT NUMBER:	202018010116
SUPERVISOR NAME:	Joojo Walker
WEEK NUMBER	8
DATE:	25/11/2023

Action plan for the current week:

1.Resolve the issue of installation failure last week, download and install Rebole, and use the quick start code to check if the installation was successful. Finally, locate the model used this time in Rebole.

2.Use the Baidu Netdisk resources provided by Rebole to download the dataset.

Challenges and issues encountered in the week:

The main issues this week are the installation failure of Rebole and the failure to download datasets using Rebole. Regarding Rebole, the previous installation method using Conda was not successful. According to the supervisor's instructions, it was installed through pip. For datasets, choose to download from resources on Baidu Netdisk.

Action plan for the next week:

1.The main plan for next week is to understand the model and the techniques and implementations used in the entire sample paper.

Supervisor Feedback:
